DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claims 42 & 48 considered unpatentable for the reasons indicated below:

Applicant is advised that the Notice of Allowance mailed is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

The indicated allowability of claims 42 & 48 is withdrawn in view of the newly discovered reference(s) to Reed et al (U.S. Patent 6,172,187 B1). Rejections based on the newly cited reference(s) follow.

Allowable Subject Matter

2. Claims 45 & 56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1649

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 42 & 48 are rejected under 35 U.S.C. 102(e) as being anticipated by Reed et al.

(U.S. Patent 6,172,187 B1).

Reed et al. teach the isolated and purified CD40 bp protein comprising amino acids 297-567 of SEQ ID NO: 2 (e.g., cols. 2, 3 & 7 (line 42)- 8 (line 46)); Figure 1; as it relates to claim 42). Pharmaceutical compositions are disclosed in column 18 (lines 49-66) (i.e., as it relates to claim 48). Note that Reed's amino acid positions #s 273-543 of their SEQ ID NO: 2 directly correspond with amino acid position #s 297-567 of SEQ ID NO: 2 of the instant application, and therefore, encompass claims 1-2, 4-6, 15, 16 & 19 of '187.

It should be noted that the Dixit Declaration of 7/05/96 cannot overcome this rejection, even though it does overcome any potential rejection under 102(e) for allowed claims 45 & 48. See MPEP 715.

4. Claims 42 & 48 are rejected under 35 U.S.C. (g) based upon claims 1-2, 4-6, 15, 16 & 19 of Patent No. 6,172,187 B1.

Art Unit: 1649

Failure to present claims and/or take necessary steps for interference purposes after notification that interfering subject matter is claimed constitutes a disclaimer of the subject matter. This amounts to a concession that, as a matter of law, the patentee is the first inventor in this country. See *In re Oguie*, 517 F.2d 1382, 186 USPQ 227 (CCPA 1975).
